Crystals, shamans, guided imagery, healing meditation -- why have these New Age ideas been so eagerly accepted by so many North Americans? Why were Mormonism, Christian Science, and Baha'i so warmly welcomed earlier? Ruth A. Tucker's *Another Gospel: Alternative Religions and the New Age Movement* explains how these and other alternative religious movements appear to meet people's needs. Tucker's overview illumines the personalities whose alleged revelations spawned historical heresies in all the major cults in the United States. She highlights important controversies within each movement as it aims for religious respectability. Her visits to cult centers and interviews with key members and scholars yield fascinating details, such as why Mormons prohibit hot drinks and how Charles Fillmore, Unity Church founder, rewrote Psalm 23: "The Lord is my banker; my credit is good . . ." *Another Gospel* pinpoints how the doctrines and practices of a dozen contemporary groups, as well as the New Age Movement, deviate from orthodox Christianity. It shows how to reach out to cult members. For example, "It's a myth that Jehovah's Witnesses know their Bible well, are argumentative, and never leave their religion." Appendices describe lesser-known cults (Swedenborgianism, Rosicrucianism, etc.) and provide, where available, cults' statements of belief.

The book itself was in excellent condition. The content was what was described and was so very helpful in my understanding of cults and sects that I bought a second one for my granddaughter.

An Excellent Resource For Believers

By Taylor

As a former member of the LDS church I find this an excellent resource to point out the false doctrines of the Mormons and other false churches. The treatments are excellent and factual...that some members of their organizations dispute the historical facts and doctrinal statements of their founders only shows that they have not made honest efforts to understand what their leaders have propagated. As a "Mormon" I was not aware of many of the more esoteric teachings of the church. I suspect that those below who would argue that this book is not factual have not in fact performed an honest assessment of their church histories and simply are not properly informed. As believers in Christ we must pray for them as my Christian friends and family did for me many years ago. I am forever grateful for people like Ms. Tucker and Walter Martin for showing me the true path to salvation and believe this book is an excellent resource to arm Christians against doctrinal fallacies.

In regards to Mr. Bartlett below, with all due respect, the Mormon church teaches that they are the only true faith much more than Protestant Denominations do. In fact, I find the suggestion that Joseph Smith and the Mormons are somehow more tolerant than other "sects" disingenuous when in fact the truth is they preach all non-Mormons will end up in hell. As an apostate, I am supposedly condemned even further to outer darkness. In this sense, Protestants are much more tolerant and inclusive in that we recognize that there are areas of difference on the nonessentials. No honest Protestant would ever say that Catholics are doomed to hell. Yet the Mormons do condemn them and all other Protestants to eternal damnation. Claiming this book is intolerant because it presents facts is a simplistic argument. I challenge you to refute even one fact presented in this novel in connection with the LDS church. As a former Mormon I refuse to treat any organization as Christian that preaches a false Christ. Mormons can wish to be called Christian all they wish but such a characterization is emphatically untrue.

A respectful treatment of important new religions

By Gary F. Zeolla

I used this book as a textbook for a class on "Christianity and the Cults" at Denver Seminary. This book covers a wide variety of new religious groups, both ones that claim to be Christian, like Mormons and JW's, and New Age type groups like Hare Krishnas and Baha'i. The professor preferred this volume to Walter Martin's "Kingdom of the Cults." I believe the reason why is this book is less "harsh" in its evaluations of the teachings of these groups than Martin's.

When this book evaluates each group's teachings, it is more with the attitude of, "This is something that should be considered" than Martin's "I'm right, you're wrong, that settles it" attitude.

For each group, Tucker gives a rather extensive review of its background and history, including a short biography of the group's founder and other important figures in its history. The "distinctive doctrines" of the group are then explained. And lastly, she provides what she calls "challenges" to these doctrines. But she emphasizes that this should be done in a respectful manner. She is correct in saying that false teachings do need to be confronted, but it is possible to do so in a loving and respectful manner (1 Peter 3:15). However, one deficiency of this book is it does not have that many Scripture references in it. Tucker seems to assume that the reader knows the Biblical basis for such basic Christian doctrines as the Trinity. And she generally provides logical not Biblical refutations of each group's teachings.

To study what the Bible has to say on such doctrines, one would need to consult a book like my "Scripture Workbook: For Personal Bible Study and Teaching the Bible." It presents hundreds of verses supporting basic Christian doctrines, such as the nature of God and the Trinity, and it provides rebuttals to interpretations these groups place on verses they quote in trying to support their doctrines.

Tucker's book is very helpful for the background information on these groups and the respectful attitude she presents. Christians need to have a basic knowledge of what such groups teach or at least a good reference like this around to consult. But for a Biblical study on such topics, you'll need to consult a book

like my "Scripture Workbook."
