Fear mongering

By paige3663

I wasn't going to read this but I did based on the 1st comment. I've been with the most amazing man for almost 2 yrs- that I met on a dating site. I think anything needs to be taken with a grain of salt. Sure online dating CAN be dangerous, but so can dating period if you meet strangers and don't use any common sense

IF that really happened, couldn't it happen just as easily if she met the guy offline. The guy could have met her at a bar, a coffee shop, laundrymat. The fact is, after reading the short story, most of the book tells you how to trace and or stalk via virtually every avenue possible.

I didn't realise how dangerous the cyber dating world actually was.

This book reveals the truth about the predators who are lurking around in the cyber world.

I will no longer use any cyber dating websites as they are unsafe, which I only found out after I read this book.

The book was well written and very interesting.
