Best book I have seen yet

By Larry R. Ruggles

I started taking drafting courses when I was a sophomore in high school, moved on to pre college 1 my junior year, then pre college 2 my senior year, and then college. Having experienced mechanical technology, aviation ground school, as well as hydraulics and fluidics, this book is by far the best I have seen. The illustrations are superb and the written explanations make it easy to absorb for any level of education. This is the book you are looking for!

Five Stars

By braun251

What a savings over the price from the college bookstore
