It is really different with the traditional way by gong to the book shop around your city.

# MACBETH (NORTON CRITICAL EDITIONS) BY WILLIAM SHAKESPEARE PDF

The Norton Critical Edition of *Macbeth*, Shakespeare's terrifying depiction of a man and woman's fall into evil, derives from the First Folio (1623), the only authoritative text of the play. The edition includes an introduction, annotations, and textual notes.

A rich "Sources and Contexts" section provides readers with an understanding of *Macbeth*'s origins from earlier texts, specifically the works of the Roman playwright Seneca, the Tudor historian Raphael Holinshed, and a medieval drama *The Slaughter of the Holy Innocents and the Death of Herod*. The contexts for the play include contemporary debates on predestination vs. free will (Martin Luther vs. Erasmus), witchcraft as fiction or fact (Reginald Scot vs. King James I), the ethics of regicide (an Elizabethan homily vs. Juan de Mariana, S.J.), and a treatise on equivocation (Henry Garnet, S.J.). This edition also features adaptations-- Davenant's moralistic *Macbeth*, some travesties, and Welcome Msomi's recent South African retelling, *uMabatha*.

Seventeen carefully chosen essays represent four hundred years of critical and theatrical interpretations, from the early observations of Simon Forman and Samuel Johnson to the Romantic readings of Samuel Taylor Coleridge, William Hazlitt, and Thomas De Quincey, to recent essays by Janet Adelman and Stephen Orgel. Sarah Siddons and Derek Jacobi remember performing *Macbeth*, and Peter Holland surveys film interpretations.

A Selected Bibliography is also included.

Good Story, Great Edition of it

By D and C

I bought this for a literature class that required this particular version. It was exactly what I expected and was a very well produced version of this story.

OUTSTANDING background for play!

By kim\*designer

As a teacher of 11th grade English, I ordered this text because I was curious about its supplementary material. Now I am committed to the Norton Critical Editions for EVERY Shakespeare play I teach in the future! My students were amazed and sometimes enthralled with the incredibly rich background material which supplemented their study of Macbeth. They especially loved comparing Lady Macbeth's invocation of evil forces, and her declaration of imagined infanticide, with Seneca's Medea, in which Medea declares she will sacrifice her children to punish her cheating husband. They were incredulous that Macbeth's witches were actually mentioned several times in Holinshed's history. The factual background for Macbeth's rise and fall, set within the context of the eleventh century, gave them a deeper understanding of his inherent brutality. They also were better able to appreciate the modern aspects of his personality as interpreted by Shakespeare by contrasting the Bard's Macbeth with Holinshed's details of the actual historical Macbeth. And they really enjoyed learning that Lady Macbeth's real name was Gruoch. (Several said they're going to name their dog or their first daughter after her! Ha, ha!) WHAT A SUPERIOR SOURCE for any teacher! Please buy this if you are reading, studying, or teaching Macbeth!

Added note: Now it's years later, and I have used the Norton Critical Editions for teaching EVERY time one is available for the work I'm teaching. They are simply the best in providing depth and analysis via the historical documentation, critical reviews (both historical and contemporary), and other source material. I am such a fan of these, and have shared them with so many students, that my AP students have begun to buy them also for the work we are studying. I can't praise these editions highly enough!

5/14/13 A reviewer just posted that she believes this is a bogus review because she saw it on the Barnes and Noble website. Well, I didn't put it there! I guarantee all of you who are looking for a genuine review of this book that she is WRONG and this review is TRUE AND GENUINE! If someone copied and pasted it, I can't control that! But I stand behind this review, and please notice that this is an Amazon Verified purchase! I have asked Amazon to remove her comment.

Macbeth (Norton Critical Editions)

By Lanning Lee

It's hard to beat Norton Critical editions in general for both source material and a range of critical articles -- not to mention abundant footnotes. If it isn't Norton Critical edition, it's not as complete a package as it should be.
