PATHFINDER PLAYER COMPANION: BLOOD OF THE BEAST BY PAIZO STAFF PDF

There are far more fantasy races than just elves and dwarves! Pathfinder Player Companion: Blood of Beasts delves into individual details about seven races: the feline catfolk, froglike grippli, fox-tailed trickster kitsune, snakelike nagaji, cunning ratfolk, raven-headed tengu, and monkeylike vanara. Information for each race includes an examination of their place in the world of Golarion, expansions of their racial options, and new player options that can be used by characters of many races such as the luck magic created by catfolk, and the ki powers perfected by vanaras.

Each monthly 32-page Pathfinder Player Companion contains several player-focused articles exploring the volume's theme as well as short articles with innovative new rules for all types of characters, as well as traits to better anchor the player to the campaign.

Great supplement with extra options and lore on offer.

By Hellgeist

Really loved reading this little guide. It's definitely a welcome addition to my RPG lore and rules collection. I enjoyed reading up on the culture and abilities, many alternatives to the standards, of these bestial races. As others have noted, the kitsune segment is of particular mention, although the catfolk entries are interesting and unique as well. I honestly enjoyed the entire read for being something different and unique.

As with all Pathfinder RPG print offerings, I enjoyed the artwork featured amongst the pages. Very colorful and well presented material, but also very concise and much shorter in length than the larger, more expensive tomes.

The length, I feel, is just right for something like this as it is more of a targeted supplement than a fully fledged, wide ranging compendium. For something that focuses on some of my favored and uncommon races you don't typically see represented in RPGs, this was an instant buy for me and will provide our gaming table with extra and enriched player character and NPC variety going forward. We would like to see more of its kind featured in the future.

My only complaint is Amazon chose to ship it in a bubble mailer which led to it getting bent and creased in the mail. A shame.

Solid flavor and options throughout; Archetypes, Traits, Feats, and Spells. It's all good.

but it does come with some pretty sweet tools for playing the bestial races

By Amazon Customer

It's quite small and short, but it does come with some pretty sweet tools for playing the bestial races. The Kitsune bits are particularly hilarious.
