Review

Starred Review "The winner of Canada's prestigious Amelia Frances Howard-Gibbon Illustrator's Award in 2010, this distinctive picture book will find an appreciative audience in the Snow Belt, while inspiring snow envy in warmer climates." Booklist

Starred Review "Two boys, next-door neighbors, awaken to find that snow has fallen overnight. At school, Scott works quietly while Jim watches the clock until...RECESS! Jim joins a 'crazy twister of kids' creating chaos on the playground, while at the edge of the schoolyard, while Scott attempts to improve his snowman-building technique and create 'the world's greatest team of snowmen.' By the end of lunchtime, all the children are working together, transforming Scott's solo project into 'The World's Greatest Totally Massive Snowman Fort!' From Scott's initial, quiet joy on discovering the snowfall to Jim's fist-pumping exuberance, the boys' personality differences are marked throughout the book, but their rock-solid friendship is at the heart of the understated, but satisfying story. Reid's artwork takes two forms; large, colorful plasticine illustrations, and small ink drawings with sepia-toned, watercolor washes. In either medium, the figures of children are expressive and pleasing. The creatively detailed and remarkably well crafted plasticine illustrations include an engaging aerial view of kids playing in the snow at recess. The winner of Canada's prestigious Amelia Frances Howard-Gibbon Illustrator's Award in 2010, this distinctive picture book will find an appreciative audience in the Snow Belt, while inspiring snow envy in warmer climates." What Kid Doesn;t Wish for a Snow Day?!

By Debbie S. Glade

Perfect Snow is a visually mesmerizing book. Author/illustrator Barbara Reid uses Plasticine, a modeling clay, to sculpt scenes for the unique illustrations. She also adds comic book style panels of black and white watercolors to show a series of scenes on various pages.

The story is about a boy named, Scott, who is hoping for a snow day, because he so wants to stay home to play in the snow. But to his dismay, school is not cancelled. During recess time, however, Scott gets his classmates involved in a snow project, but can they finish before the bell rings? You'll have to read the book to find out.

Kids will love this book, because they can all relate to the joy of playing in the snow on a blustery day. Even if they live in a warm climate, children can certainly dream about playing in the snow.

What a beautiful book!

By Amazon Customer

This book is fantastic!

Reminds me of when I was a kid building snow fort creations in the snow.

This book is perfect for those who want to reminisce about those snowy days they enjoyed as a kid or if you want to read it to your child and then tell them about your snowy day adventures this would be a good lead in. This book is sure to captivate kids attention and keep it throughout the entire story.

As always Barbara Reid's artwork is stunningly beautiful. If you are new to her books, look her up on Amazon and check out her other books. They inspire creativity in kids (and adults!) everywhere.

Thank you Barbara for another fantastic children's book!

Perfect Snow

By Karen A. Peale

I fell in love with the graphics in Barbara Reid's books when I came across "Subway Mouse" during one of my grad classes. I really like the pictures because they honestly have a dimensional look, plus texture. Subway mouse is better than this book, but you really do feel like you could pick up a ball of snow. If I'm not mistaken she uses resin to do all of the artwork. I'm actually keeping these books to read to my grandchildren some day.
