Hmmm

By Michaela S.

Sad that the fire In Elena was quenched too soon. Could have been so much better if longer. Courting could be longer and way more development. I gave it 2.5 stars for the female mc other than that sad. The story line needs to be developed more. Grammatical errors and missing words but I didn't rate that.

Quick, Steamy Paranormal Read

By Nessa

Super steamy, super hot, and a great follow-up book after Gemini. Aliens are invading earth, but not for the typical reasons. Earth is at the center of a universal war, and it's up to the leading families to save it. If you love menage MFM romances, quick steamy reads, with paranormal aspects, definitely add the Lords of Astria to your library!

Interesting premise, save the galaxy 2 hot aliens at a time.

By Marie

The h started out fiery but there was intergalactic sex to be had. There were some formatting issues. The first half had double spacing between the paragraphs and then switched to normal spacing. I'm not a fan of ending

a chapter with a "she couldn't believe what she saw..." type prompt. I think almost every chapter ended with an ellipses.
