Stedman's Medical Dictionary 28th ed.

By JAMA

The dictionary is pretty good, once you adjust where to look for certain illnesses (a syndrome may be listed under disease or vice versa). The biggest disappointment is the inability to download the info onto my PDA. I downloads everything but the data file and there is virtually no support to figure out the glitch. The error message i receive is not identified on the software website. Beat. I still support the dictionary but don't fuss over the PDA stuff unless you are saavy.

very good resource book for medical students

By J. Steele

I had bought an old edition of stedman's medical dictionary before on my freshman year as a nursing student and did help me a lot, this copy is for a friend of mine whose also a medical student and very glad that I recommended it for her, very good resource book for medical students.

excellent deal

By Amazon Customer

This came in a timely manner, it was used, but had a perfect cover on it, maybe it wasn't used, i can't remember how i came up with that conclusion, however it was in mint condition, no pages torn or even bent/crinkled. I couldn't have gotten a better deal on it. and it was packaged perfectly. will definitely buy from this person again.
