THANK YOU PRESIDENT HARRY S. TRUMAN BY MR ROBERTO RIVERA PDF

Thank You, President Harry S. Truman tells the compelling story of America's 33rd President from his humble beginnings as a dirt farmer in Missouri to his rise in the U.S. Senate, on through to his election as Vice President and President of the United States. Overcoming adversity, physical challenges, and age limits, Truman found his way into the United States Army where as a Captain, he led troops in battle without losing a single man. The book focuses largely on Truman's accomplishments, post war, most importantly his decision to drop the atomic bombs on Hiroshima and Nagasaki in Japan once the United States had been engaged in World War II following the Japanese bombing of Pearl Harbor. Author Rivera explores the difficulty of Truman's decision, the alternate plan of invasion, the estimated cost in lives, for that invasion - both American and Japanese- and the ultimate decision to use the bomb. With a guest chapter by James Martin Davis, Rivera has woven a complex portrait of a great man faced with an unimaginable decision. Through narrative, storytelling, and historical detail, Rivera makes the case for Harry S. Truman as one of the foremost politicians of the 20th century and one of the greatest American Presidents of all time. Without Truman's fortitude and courage, Rivera claims, many of us would not be here today. For that alone, we can all say, Thank You, President Harry S. Truman.

Precise and passionate historical writing at its finest

By C.G.

This is an ideal read for anyone with an interest in World War II and its aftermath. Rivera performs the gritty, yet essential work of a seasoned historian to frame Truman and his monumental decision(s) in the pantheon of historical figures who have not been properly appreciated. History is the constant process of revision in the present and Rivera's text reminds us of this essential fact. The writing is clear, clean, and informative. There are countless ways to pass away Sunday afternoon; you will be best served by spending one with this book.

An important part of America's history!

By Bob

This was an easy to read book. The author gave enough detail about President Truman and all the relevant parties that the reader knows why they're important but does not inundate the reader with unnecessary

detail. The language is quite accessible and unpretentious. I highly recommend it. As part of the baby boomer generation, I found this part of our history amazing! Most probably, if it was not for Truman's decision, there would not be the America we have today! I also admire my dad, which wrote this book and is now officially a Late Bloomer! Go Dad!

Worthwhile read for President Truman fans

By venus strawn

Great historical and worthwhile read! Rivera brings this momentous decision to life. President Truman was courageous in the face of competing inputs and choices and prepared the world for peace following a horrific war.

I especially liked the background on Japanese culture and the explanation on deification of the Emperor as it had a huge impact on their conduct of war. Rivera almost seemed to prepare a legal brief supporting the greatness of President Truman.
