Fascinating read!

By Philip J. Nork

The Tree House is an interesting read.

What would you do if you found out you were part of some medical experiment when you were born and the chip they implanted in you to help keep you safe actually would kill you years later?

Hailey, a 21-year-old woman, and others were part of this and you won't believe what they do. This is more than an adventure; it is a tale of trust, family, broken dreams and love. I found myself immersed immediately and unable to do anything else until I finished it.

I recommend this book to everyone who feels different, whose life isn't going as planned and to those who are eternal optimists. Everyone will take something from this read.

Kudos to the author and I hope she writes some more. I am hooked on her!

Where have you been all my life?

By Daniela @ YA Book Season

There are some truly unique gems in the self-publishing industry, and *The Tree House* is definitely one of them. I had a hard time putting this one down, and right now, I'm having a hard time putting this review together to fully express my feelings for this book. I am head over heels in love with it. It was.... wow. I fully expected something predictable, something I always come across, something I would easily get bored with, but there was none of that. This book hit home-run about tens time.

At first, the start of the book was 'eh, it's okay'. Hailey's home is broken into and her parents yell at her to run, so she does. The story instantly picks up speed. Hailey is chased by two men in suits, who are pointing guns at her head. She ends up being saved by this No-Name stranger with lovely eyes. And at that exact point where Hailey meets No-Name, I thought the book would fall into the usual romantic cliché. She met her handsome Prince Charming and they rode off into the sunset.

I was wrong. TOTALLY wrong. So take it from me: Do NOT judge this book by the first ten pages. It gets good. Really good.

I was expecting a Disney 'they lived happily ever after' with some random singing and nice choreography and a whole lot of kissing. Well, I got the kissing part, but this pure blood, sweat, and tears all over the place. Definitely not Disney's style. This had the gripping suspense of the best action movies I've seen (and that's saying something). The book takes over a time span of about two weeks and a lot of things happen during these two weeks. It moves lightning quick, but Shay Lynam definitely knows how to pace herself.

Hailey is 100% human and so is everyone else (just thought I'd point that out), they were just not supposed live through their birth. So Eli Scott created a special chip to keep these types of children alive. It was brilliant, the miracle of all miracles and it was going to sell for millions, until the chip started to malfunction and all these children (now adults) began to die horrible deaths. He didn't want people suing him so what did he do? He contracted a couple of killers and sent them out to get rid of the evidence. Luckily for Hailey, Jack (who I will now call 'The Maelstrom of Emotions') finds her and... well, Hailey sort of forces him to help her. She's a tough girl like that.

Hailey is a fierce and utterly unpredictable girl. She cries a lot, but under the circumstance, who wouldn't? So many terrible things happen to her. Gosh, I don't even know how she kept going. Shay Lynam had no mercy on her, she was constantly facing some sort of obstacle whether it was a gunman or Jack or her own brother. I do admire her, not only because of her emotional strength, but because she remained levelheaded even when she had all the reasons not to.

Jack (The Maelstrom of Emotions) was... a maelstrom of emotions. He could make me giddy, depressed, and ready to shoot his head off all in one. He had this bipolar thing going on (or maybe it's an all guy thing) where he acted like he hated Hailey when he was actually crushing on her. To put it short, he could get under anyone's skin. He wasn't a 'swoon-worthy' guy, he was just inevitable and captivating. The sort of guy you know is bad but you just can't look away from.

Their relationship was complicated. It was perfect really. They were both angry and hurt and they needed someone to look after them even if they didn't know it.

Story-wise, people die in this book. I know that sounds like a stupid observation, but I really got to know the characters and I actually felt connected to them. I cared about them.

Overall, I LOVED *The Tree House*. There were a lot of grammatical and spelling errors, but I soon found myself flying past those. The story was fast and furious and I was in for a lot of surprises. Now, the ending was exactly a cliffhanger, but I'm pretty sure there will be a book two.

I. CANNOT. Wait!

Do I recommend it? Oh. Yeah.

Simply GREAT

By Brian Pedersen

Seldom do I find a piece of writing that is both interesting and entertaining. This is just such a book. It had great character development and a strong and fast moving story line. For a first time book this young lady has done herself well. I encourage her to continue with her writing. It can only get better as she continues to develop her skills and desire to write. I was drawn into her story and found it most difficult to put the book down. Actually, I kept it by my side and when I had five or more minutes to continue reading I would return to the story. I especially like the ending. It was imaginative and rather surprising to say the least. I more than recommend this book to anyone who loves exciting and fast moving stories. A story with a serious feel to it as the girl in the story discovered and then dealt with her problem. I always thought of a tree house as a sanctuary, a place where one could find solitude and peace when life was dealing someone some serious problems. This was far beyond that. GOOD JOB! B. D. Pedersen
