Most helpful customer reviews

2 of 2 people found the following review helpful.

Our kids deserve better. Get some real graphic designers for future editions.

By M Johnston

An American History book with a photo of kids playing video games on the cover. That is a good indication of how poorly this book is thought out. My kids use these at their school so I've experienced them firsthand. The history is there but the layout and design is so poor that confusion is part of nearly every lesson. Clearly, budgets have been slashed to the point where stock images and vague references are now part of the American experience. Gone are the days of custom illustrations and updated maps. It's all there in the Library of Congress if anyone would take the time and effort. Sad.
